

Ye Bunyipe

'Let's bless *Ye Bunyipe* and all those who sail in her!'

Here is your chance to build *Ye Bunyipe* and race her against the other boats.

1. Cut the side out of a milk container
2. Cut a small hole in the base
3. Take *Ye Bunyipe* to some shallow water (or a tub)
4. Put the balloon in the body of the boat, pull the neck out through the hole in the base
5. Blow up the balloon
6. Hold the neck of the balloon tightly
7. Place *Ye Bunyipe* in the water and let go!

What happened? _____

Now get a tape measure. Measure how far *Ye Bunyipe* can travel. Using a stop watch, see how long it takes *Ye Bunyipe* to travel this distance.

Number of puffs	Distance travelled	Time taken

Can you think of another way of showing this information?
