[We regret that some of the Lithographic Drawings should be imperfectly printed, our Press, which is of *Colonial Manufacture*, being too new to work, compelled us to have recourse to one which is too small to bring out the tints of a highly finished drawing. Mr. Gilbert, at whose request this notice is inserted, trusts the above reasons will be liberally accepted, as his drawings *on the stone* were sufficiently strong to produce, under other circumstances, a successful result, which he anticipates in our next.]
