

## Table 5. Ethnic and National Groups

The following numbers are never used alone, but may be used as required (either directly when so noted or through the interposition of notation 089 from Table 1) with any number from the schedules, e.g., civil and political rights (323.11) of Navajo Indians (—9726 in this table): 323.119726; ceramic arts (738) of Jews (—924 in this table): 738.089924. They may also be used when so noted with numbers from other tables, e.g., notation 174 from Table 2

In this table racial groups are mentioned in connection with a few broad ethnic groupings, e.g., a note to class Blacks of African origin at —96 Africans and people of African descent. Concepts of race vary. A work that emphasizes race should be classed with the ethnic group that most closely matches the concept of race described in the work

Except where instructed otherwise, and unless it is redundant, add 0 to the number from this table and to the result add notation 1 or 3–9 from Table 2 for area in which a group is or was located, e.g., Germans in Brazil —31081, but Germans in Germany —31; Jews in Germany or Jews from Germany —924043. If notation from Table 2 is not added, use 00 for standard subdivisions; see below for complete instructions on using standard subdivisions

Notation from Table 2 may be added if the number in Table 5 is limited to speakers of only one language even if the group discussed does not approximate the whole of the group specified by the Table 5 number, e.g., Bavarians in Brazil —31081 (because German is the primary language spoken by Bavarians), but Amhara in United States —928 (*not* —928073 because Amharic is not the only language spoken by the peoples included in —928)

Notation from Table 2 may be added for either present or past specific location of the group discussed if only one specific location is relevant, e.g., sociology of Jews from many different countries now in United States 305.8924073, contributions to music around the world of Jews who previously lived in Poland 780.899240438

If both present and past specific locations of the group discussed are relevant, then notation from Table 2 is added only for present location of the group, e.g., Jews from Germany in the United States —924073 (*not* —924043). An exception occurs when the present location of the group is defined by the class number to which ethnic or national group notation is added, e.g., Jews in United States history 973.04924. The area notation added to Table 5 numbers is then available to show the past location of the group, e.g., Jews from Germany in United States history 973.04924043, Jews from Germany in United States higher education 378.73089924043

Standard subdivisions may be added to Table 5 notation when that notation is added directly to the base number, e.g., periodicals about sociology of Irish Americans 305.8916207305. However, standard subdivisions are not added to Table 5 notation when that notation is used through interposition of notation 089 from Table 1, e.g., an exhibition of ceramic arts of Russian Jews 738.089924047 (*not* 738.089924047074)

When Table 5 notation is not followed by 0 plus notation from Table 2, use 00 for standard subdivisions, e.g., periodicals about sociology of Japanese 305.8956005, collected biography of Irish Americans in New York City 974.71004916200922. When Table 5 notation is followed by 0 plus notation from Table 2, however, use 0 for standard subdivisions, e.g., periodicals about sociology of Japanese Americans 305.895607305. (For the purpose of this rule, notation 96073 African Americans is treated as Table 5 notation, e.g., periodicals on sociology of African Americans 305.896073005, periodicals on sociology of African Americans in Ohio 305.896073077105)

Except where instructed otherwise, give preference to ethnic group over nationality, e.g., United States citizens of Serbian descent —9182073 (*not* —13). In this table "ethnic group" most often means a group with linguistic ties, but it can also mean a group with other cultural ties

Except where instructed otherwise, when choosing between two ethnic groups, give preference to the group for which the notation is different from that for the nationality of the people, e.g., a work treating equally Hispanic and native American heritage of bilingual Spanish-Guaraní mestizos of Paraguay —9838220892 (*not* —68892)

Except where instructed otherwise, when choosing between two national groups, give preference to the former or ancestral national group, e.g., people from the former Soviet Union who became United States citizens —917073 (*not* —13)

*See Manual at Table 5*

### SUMMARY

- 05–09 [Persons of mixed ancestry with ethnic origins from more than one continent; Europeans and people of European descent]
- 1 North Americans
- 2 British, English, Anglo-Saxons
- 3 Germanic peoples
- 4 Modern Latin peoples
- 5 Italians, Romanians, related groups
- 6 Peoples who speak, or whose ancestors spoke, Spanish, Portuguese, Galician
- 7 Other Italic peoples

#### —[03] Basic races

Provision discontinued because without meaning in context

#### —[034] Europeans and people of European descent

Relocated to —09

#### —[04] Persons of mixed ancestry with ethnic origins from more than one continent

Relocated to —05

**—05 Persons of mixed ancestry with ethnic origins from more than one continent [formerly —04]**

Limited to works that emphasize such mixed ancestry

Add to base number —05 notation 09–9 from Table 5 for the group only, e.g., American native peoples of mixed ancestry with ethnic origins from more than one continent —0597; then, for each group having its own number, add 0\* and to the result add notation 09–9 from Table 5, e.g., persons of mixed American native and European ancestry —0597009, persons of mixed American native and European ancestry in Canada —0597009071, persons of mixed Aleut and Russian ancestry —05971909171; however, for persons of mixed North and South American native ancestry, see —97

Give priority in notation to the ethnic group emphasized. If emphasis is equal, give priority to the one coming last in Table 5

Class works about persons of mixed ancestry that do not emphasize mixture with the ethnic groups stressed in the works or with the groups with which the people are most closely identified, e.g., works about Métis that emphasize their North American native roots —97 (*not* —0597009); class works that stress the kind of mixed ethnic heritage (e.g., language, customs, food, but not genetics) that results when people of one continent move to another continent and raise their children in the new location with the ethnic group of origin, plus notation from Table 2 as instructed at beginning of Table 5 to show the new location, e.g., persons who have Chinese parents and were raised in the United Kingdom —951041

**—09 Europeans and people of European descent [formerly —034]**

Class here people who speak or whose ancestors spoke languages traditionally spoken in Europe; comprehensive works on Indo-European peoples; comprehensive works on whites

Class works that emphasize mixed ancestry with origins from more than one continent in —05, e.g., works emphasizing mixed Hindi-English ancestry —059143021

*For a specific ethnic or regional group, see the group, e.g., Germans —31, Bengali —9144, Arabs —927, people of Middle Eastern origins —94*

**> —1–9 Specific ethnic and national groups**

By origin or situation

Class comprehensive works on Europeans, on Indo-European peoples in —09; class comprehensive works in 001–999 without adding notation from Table 5

*See Manual at Table 5*

(Option: To give local emphasis and a shorter number to a specific group, place it first by use of a letter or other symbol, e.g., Arabs 5\_A [preceding 5\_1]. Another option is given at 5\_1)

\*Add 000 for standard subdivisions; see instructions at beginning of Table 1

**—1 North Americans**

*For Spanish Americans, see —68; for North American regional and national groups of largely African descent, see —9697, e.g., West Indians —969729, Haitians —9697294; for North American native peoples, see —97. For North Americans of other origins, see the ethnic group of origin, e.g., North Americans of Celtic (Irish, Scots, Manx, Welsh, Cornish) origin —91607*

(Option: To give local emphasis and a shorter number to a specific group, e.g., Sinhalese, class it in this number; in that case class North Americans in —2. Another option is given at —1–9)

**—11 Canadians**

Class here people of Canada as a national group

*For Canadians not of British or French origin, see the ethnic group of origin, e.g., Canadians of German origin —31071, Inuit —9712071*

**—112 Canadians of British origin**

## T5—0

**Table 5. Ethnic and National Groups****Nationality and language**

Table 5 Ethnic and National Groups and Table 6 Languages are both based on the traditional sequence of languages in 420–490, and therefore most numbers are developed in parallel. But separate tables are needed because language and nationality do not always match, e.g., there are Canadian people (T5—11 in Table 5), but no Canadian language; there is a Yiddish language (T6—391 in Table 6) but no Yiddish people.

**Ethnic group and nationality**

The generally preferred citation order is ethnic group over nationality, as nationality is normally given a low priority, and citizens and noncitizens of a country class in the same number. However, a different and atypical citation order is given at some specific numbers in Table 5, e.g., for Canadians of French and British origin, the prescribed citation order is nationality first (T5—11 Canadians), then ethnic group: T5—112 for Canadians of British origin, T5—114 for Canadians of French origin. Use the numbers T5—21071 (T5—21 people of British Isles + T2—71 Canada) and T5—41071 (T5—41 French + T2—71 Canada) only for persons of British and French origin in Canada who are not Canadian citizens. But in the absence of specific instructions to the contrary use the citation order given at the beginning of the table, e.g., Canadians of Ukrainian descent T5—91791071 (*not* T5—11). Use this same number for both Canadians of Ukrainian descent and persons of Ukrainian descent who are in Canada but not Canadian citizens.

In general, use the same number for both the majority ethnic group of a nation and the total population viewed as a national group, e.g., T5—94541 for both ethnic Finns and all citizens of Finland viewed as a national group. Usually, priority between ethnic and national affiliation is an issue only for minority ethnic groups, e.g., use T5—39704897 (T5—397 Swedes + T2—4897 Finland) for Finnish citizens who are ethnic Swedes, a minority ethnic group, because their ethnic group takes priority over their nationality. Use T5—94541073 (T5—94541 Finns + T2—73 United States) for Finnish citizens who are ethnic Finns in the United States, but use T5—397073 (T5—397 Swedes + T2—73 United States) for Finnish citizens who are ethnic Swedes in the United States, which is the number for all persons of Swedish descent in the United States. Their Finnish national origin is not expressed because of the low priority given to nationality. The exception to this rule occurs when the class number to which Table 5 notation is added defines the present location of the group, as in 940–999, so that it is possible to express both the present and the past location of the group, e.g., use 973.0439704897 for ethnic Swedes from Finland in United States history.

Special developments that allow expression of both ethnic and national affiliation are typically made only for the majority ethnic group in a nation, under the heading "national group," e.g., T5—6887 expresses both Spanish American ethnicity and Venezuelan nationality, while T5—9697292 expresses both African ancestry and Jamaican nationality. However, there is no special development to express both African ancestry and Venezuelan nationality because African Venezuelans are a minority in Venezuela and cannot be called a "national group." Therefore the number for African Venezuelans in England (T5—96042) is the same as the number for persons of African ancestry in general in England; and Venezuelan nationality is not expressed (*except* when it is possible to express both present and past location, e.g., African Venezuelans in English history 942.00496087). Conversely, Table 5 numbers for Venezuelans of Spanish origin in England (T5—6887042) and Jamaicans of African origin in England (T5—9697292042) always express the national origins.

In some cases, special developments for national groups lead to the number for a national group being clearly different from the number for the largest ethnic group of the country. For example, the number for the Bhutanese as a national group is T5—91418; but the Bhotia, the largest ethnic group, speak Tibetan dialects and class as an ethnic group with the Tibetans in T5—9541. In some cases, the national group number for a country may not express the ethnicity of the majority of the population. For example, the national group numbers for all the modern nations of Latin America where Spanish is at least one of the official languages express Spanish-American ethnicity, though the majority of the population in some countries is of native American origin, e.g., Bolivia. Class works that discuss all the people of a nation in the national group number specified in the table. Class works that focus on a specific ethnic group with the ethnic group. Use the national group number for a work that focuses on a specific ethnic group if it expresses the appropriate ethnicity, e.g., use T5—6884 for works that discuss all the people of Bolivia and also for works that focus on the Bolivians who speak Spanish and follow Spanish-American customs; but use T5—98323084 for works that focus on the Quechua of Bolivia, T5—98324084 for works that focus on the Aymara of Bolivia.

### Adding area notation

Area notation is normally added to a Table 5 number to signify location, e.g., sociology of Italians in England 305.851042. However, area notation is omitted whenever it is redundant, e.g., 973.046872 Mexican Americans in U.S. history (*not* 973.046872073).

### African Americans

An atypical development for African Americans (T5—96073) gives extra emphasis to nationality for a minority group, while still preserving the usual citation order of ethnic group before nationality. The 073 signifies U.S. nationality rather than location; so area numbers can be added to it in the usual way, e.g., use T5—960730747 for U.S. citizens with African ancestry in New York State. However, this applies only to U.S. citizens; so use T5—960747 for noncitizens of African ancestry in New York State. There are no special developments for most ethnic groups in the United States, e.g., use T5—510747 for persons of Italian descent in New York State regardless of whether they are U.S. citizens. The

Table 5 number for African Americans always expresses the U.S. national origin when used for areas outside the U.S., e.g., use T5—96073042 for African Americans in England. Conversely, the number for Italian Americans in England (T5—51042) is the same as for Italians in England (with the usual exception for history, e.g., Italian Americans in English history 942.00451073).

### **T5—112, T5—114 vs. T5—2, T5—41**

#### **Canadians of British origin and Canadians of French origin vs. British, English, Anglo-Saxons and French**

Use T5—112 for Canadian citizens of British origin and T5—114 for Canadian citizens of French origin, even with numbers that already specify Canada, e.g., use 971.004112 for Canadian citizens of British ancestry in Canadian history. Use T5—112 or T5—114 for accounts of persons of British or French ancestry becoming Canadian citizens. Also use T5—112 and T5—114 for persons of British or French origin living in the territory that later became the nation of Canada if they are regarded as among the precursors of British or French Canadians or founders of the nation, e.g., the French in Canada 1600–1867 971.004114.

Use T5—2 and T5—41 for persons of British or French ancestry who were not and never became Canadian citizens, even though they may have resided in Canada or in the territory that later became Canada. For example, the inhabitants of the French colony Acadia in what is now Nova Scotia who were expelled in 1755 and became the Cajuns of today's Louisiana were never Canadian citizens; so use T5—410763 (*not* T5—1140763) for Louisiana Cajuns.

If in doubt, prefer T5—112 and T5—114.

### **T5—13 vs. T5—2073, T5—21073**

#### **People of United States ("Americans") vs. British, English, Anglo-Saxons in United States and People of British Isles in United States**

Use T5—13 (*not* T5—2073 or T5—21073) for U.S. citizens of British ancestry, even with a number that already means United States, e.g., British Americans in U.S. history 973.0413. Use T5—13 for comprehensive works on both U.S. citizens and non-U.S. citizens of British ancestry in the United States. Use T5—13 for accounts of persons of British ancestry becoming U.S. citizens. Use T5—2073 or T5—21073 for non-U.S. citizens of British ancestry in the United States. (Do not add notation 073 if T5—2 or T5—21 is used with a number that already means United States, as it would be redundant, e.g., all noncitizens of British ancestry in U.S. history 973.042.) If in doubt, prefer T5—13.

### **T5—201–209 vs. T5—2101–2109**

#### **British English Anglo-Saxons by area vs. People of British Isles by area**

Use T5—201–209 for persons of British ancestry in an area when many of them are or have most recently been citizens of the United States, Canada, Australia, or New Zealand, e.g., persons from the United Kingdom, the United States, Canada, and Australia in the Third World T5—201724. Use T5—2101–2109 for persons of British ancestry in an area when they are or have most recently been citizens of

the United Kingdom, e.g., persons from the United Kingdom in the Third World T5—2101724. If in doubt, prefer T5—201—209.

**T5—9435****Turks**

Use T5—9435 for (a) the people of Turkey as a national group; and (b) people who speak, or whose ancestors spoke, Turkish (Osmanli Turks and their descendants), including those who are not Turkish nationals, e.g., Turkish Cypriots T5—943505693.

**T5—96073****African Americans (United States Blacks)**

The 073 in T5—96073 signifies U.S. nationality rather than location. It is never omitted even where it would be redundant if it simply signified location, e.g., 973.0496073 African Americans in U.S. history (as distinct from 973.0496 for noncitizens of African ancestry in U.S. history). Area subdivisions are added to it in the usual way, e.g., 305.8960730747 sociology of African Americans in New York (as distinct from 305.8960747 sociology of non-U.S. citizens of African ancestry in New York).
