

# The System of Nature

Carl Linnaeus (1707–1778)

Taken from Banks' Florilegium, *Dillenia alata* (Endeavour River), National Library of Australia

This dot-to-dot reveals a copy of a drawing by Sydney Parkinson, an artist on James Cook's first voyage around the world from 1768 to 1771 on the ship HMB *Endeavour*. During this voyage, he drew more than 700 Australian plants that Europeans had never seen before! Complete the dot-to-dot and then colour it in.
