Status Report
The committee discussed the Libraries Australia Status Report covering the period July 2017 to March 2018.

Member Survey
The committee reviewed the preliminary results of the Libraries Australia member survey.

The survey results will provide information about how Libraries Australia services are being used and their value to members.

National Digital Services Collaboration
The National Library continued to seek advice from the committee on the development of a new business model to support collaborative digital services.

Libraries Australia outlined the complexities and process for migrating the Libraries Australia Document Delivery (LADD) national resource sharing platform to a new platform post VDX.

The LADD community consists of:
- 578 LADD sites
- 12 VDX sites
- 48 sites using VDX in a consortium arrangement
- 16 Relais sites
- 13 Alma sites.

Share it 2018
Libraries Australia provided an update on the upcoming Share it resource sharing futures conference, to be held on 10 and 11 May at the National Library of Australia.

The aims of Share it are to:
1. discuss the current Australian resource sharing landscape and issues around the complex world of modern resource sharing
2. determine whether there is still a need for a national resource sharing service and, if so, develop a resource sharing road map and action plan for Australia.

NEXT MEETING OCTOBER 2018
