

## **RFT 14/049 – Maps Storage Systems**

The Library has received the following questions in relation to the Maps Storage System Tender and provides the following answers:

**Q5** – Has the 'Draft Standard Works Contract (No. 14/049)' been issued as an example of what the issued works contract will be and therefore does not form part of our tender submission.

**An 5** - The Draft Standard Works Contract has been issued to allow you to answer the questions at Schedule 3.7. This forms part of the Technical Worth Assessment - selection criteria (e) the risk and benefits to the Library which flow from the extent of the Tenderer's compliance with the draft Contract.

**Qn 6** - Do the 'Contractor Protocols' need to be completed with tender submission or is it a document to be completed by the successful tenderer.

**An 6** - No - the Contractor Protocols do not need to be completed with the tender submission. This document is attached to further explain site conditions and restrictions. The successful Contactor and sub-contractors will be required to sign the acknowledgment statement prior to any Works commencing
